## EXPERIENCE

### Location Recording & Post Production (4 Part Music Ltd)

I set up 4 Part Music Ltd in 2004 to offer high quality location recordings to classical musicians. Together with my business partner we now provide content to record labels, live broadcasters, streaming services and online stores. All recordings are carried out using our own high grade recording equipment which includes, RME Micstasy & Millennia HV-3R Pre Amps and a wide array of microphones from AKG, Sennheiser, Earthworks & Soundfield.

### Music Producer

Run the session from DAW via Video Link & In ear communication with the conductor.

Offer Musical guidance and performance advice.

Take session notes for use in post production.

### Location Engineer

Provide stereo and surround mobile recording facilities (2-32 channels as required)

Decide on Microphone placement to capture detail of musicians & acoustic.

Manage technical aspects of the session including DAW and communications.

### Post Production

Fully equipped post production & mastering studio for editing, balancing and mixing of audio and video.

Production of Master CD & DVD to red book standard ready for replication.

Creation of Digital Artwork files for CD cover & online stores.

*For examples of my recording work please visit [www.4partmusic.co.uk](http://www.4partmusic.co.uk) for more information.*

## **Jules Addison B.Mus (Hons)**

### **Composer, Orchestrator & Arranger**

I am an active composer of both acoustic and electronic music. As a result, my music has often been described as “crossover”, taking the best from both genres.

### **Orchestration & Arrangement**

Work with other composers to turn their ideas into musical scores ready to be recorded.

Add backing tracks to choir recordings that were originally recorded with just piano.

Preparation of Rehearsal Tracks for use by choir members as an aid to learning their notes.

For examples of my work please visit [www.julesaddison.co.uk](http://www.julesaddison.co.uk) for more information.
